This is a synthetic software-testing fixture, not a report issued by CRIB or a lender.

It follows the section order and table structure of the supplied ten-page specimen.

All names, identifiers, account references, facilities and transactions are fictional.

Bureau scores, subgrades, probabilities and reason codes are assigned test values.

The family legend is transcribed from the sample; exact subgrade cutoffs are not claimed.

No official score model, probability calibration or bureau endorsement is represented.

A CRIB risk grade is distinct from the project lease-feasibility grade.

Expected project results require verified inputs supplied in expected.json.

Outstanding principal is not a monthly debt obligation. Transfers are not income.

Use every report page when extracting facilities and payment history.
